

Name:

1 Tyrannosaur Teeth

Find the skeleton of *Tyrannosaurus rex* (tie-ran-o-sore-us-rex).

Look at its teeth.

Draw the teeth on this picture.

Are the teeth...

 short and bumpy?

 long and pointed?

2 Triceratops Teeth

Find the *Triceratops* (tri-sehr-a-tops) skull.

Look at its teeth.

Draw the teeth on this picture.

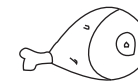

Are the teeth...

 short and bumpy?  long and pointed?

3 Dinosaur Dinner

Some dinosaurs had teeth that were good for **eating meat**.
Some dinosaurs had teeth that were good for **eating plants**.

Match the teeth up with the food.

Did you know...

Plant-eating dinosaurs are called **herbivores**, and meat-eating dinosaurs are called **carnivores**.

4 Munching Mystery

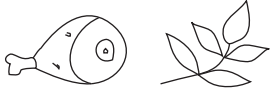

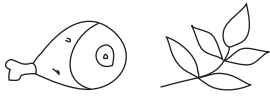

Find these dinosaurs in the Museum.

- **Compsognathus** (comp-sog-nay-thus)
- **Edmontosaurus** (ed-mon-toe-sore-us)
- **Iguanodon** (ig-waah-no-don)
- **Megalosaurus** (meg-ah-lo-sore-us)

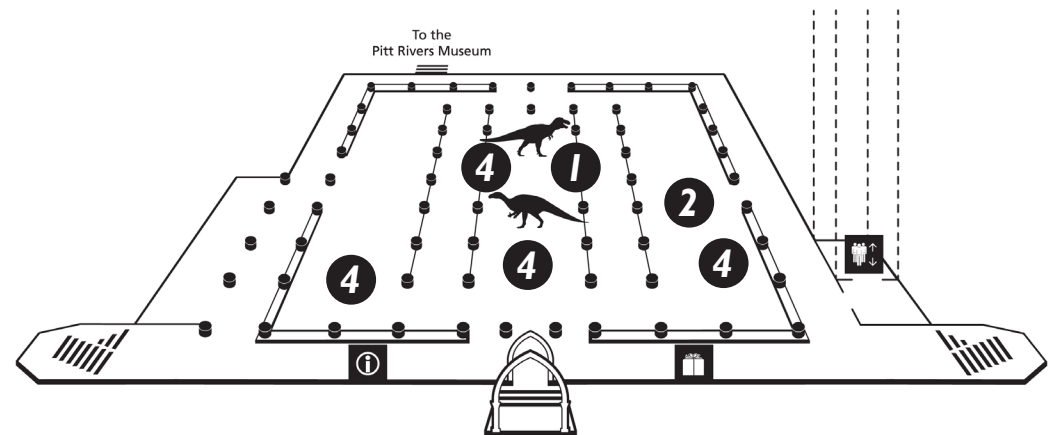

Look at their teeth and **draw** an example below.

Think about what you have learnt so far.

Circle what you think each dinosaur ate.

Dinosaur	Tooth	Food (circle your answer)
Compsognathus		
Edmontosaurus		
Iguanodon		
Megalosaurus
